

Texas Republicans don't support us.

Republicans in the Texas State House have failed our community. We can't afford to have them represent us any longer.

Republicans in the Texas State House:

- ✗ Supported a plan that would increase health care costs for Texas families and eliminate protections for people with pre-existing conditions like cancer, diabetes, heart disease, or pregnancy.¹
- ✗ Cut billions of dollars in funding for Texas schools.²
- ✗ Weakened gun laws, even though four of the deadliest mass shootings in recent U.S. history have occurred in Texas.³

Our community deserves better. **VOTE AGAINST** Republicans for the Texas State House.
