To the Honorable Speaker Lisa Demuth and Minnesota House Republicans,

Our state has been through too much violence. In less than a year, we have seen a public servant and her husband killed in their home, and two children killed in their church. These tragedies are just two examples of the more than 550 lives we lose to gun violence every year in Minnesota. The horrors of last summer have upended the lives of so many, and in the midst of loss and of grief, there is opportunity.

We represent every corner of our great state: doctors, teachers, students, parents, nurses, members of law enforcement, and so much more. Minnesota is calling on each of you to take action to stop gun violence that has not only impacted our home state, but so many communities across this country.

We are calling on each of you to take action.

This opportunity is not a chance for you to capitalize on politics, or to curry favor for your next election. This is your opportunity to cast a vote to save our children. We call on you to support:

- A ban on assault weapons and high capacity magazines
- A ban on ghost guns
- A re-enactment of the 2024 binary trigger law
- Measures that will keep firearms off of our school campuses
- Comprehensive, preventative safety measures for schools
- Holistic resources for Minnesotans who need support for their mental health

Speaker Demuth: bring these bills to a vote so they can become law. Minnesotans have been shaken to the core following a summer with multiple tragedies, and we are asking for you to bring to a vote a package that addresses many facets of what makes the gun violence epidemic so dangerous.

No single law will prevent the rampant and excessive gun violence that has plagued countless Minnesota families. We recognize there is no singular solution that will save every life, but that reality does not excuse inaction. Meaningful, evidence-based steps like those listed above can and must be taken to reduce harm, protect our communities, and prevent tragedies before they occur.

It's easy to make this topic political, so let us be clear: ending preventable deaths from gun violence isn't political. It's common sense, it's popular among Minnesotans, and it's the right thing to do.

There is little time left this legislative session to take action. Show courage. We can't wait.

Sincerely,

Kristina Degiovanni	St. Joseph
